

NATIONAL REVERSIBLE SULKY PLOW.

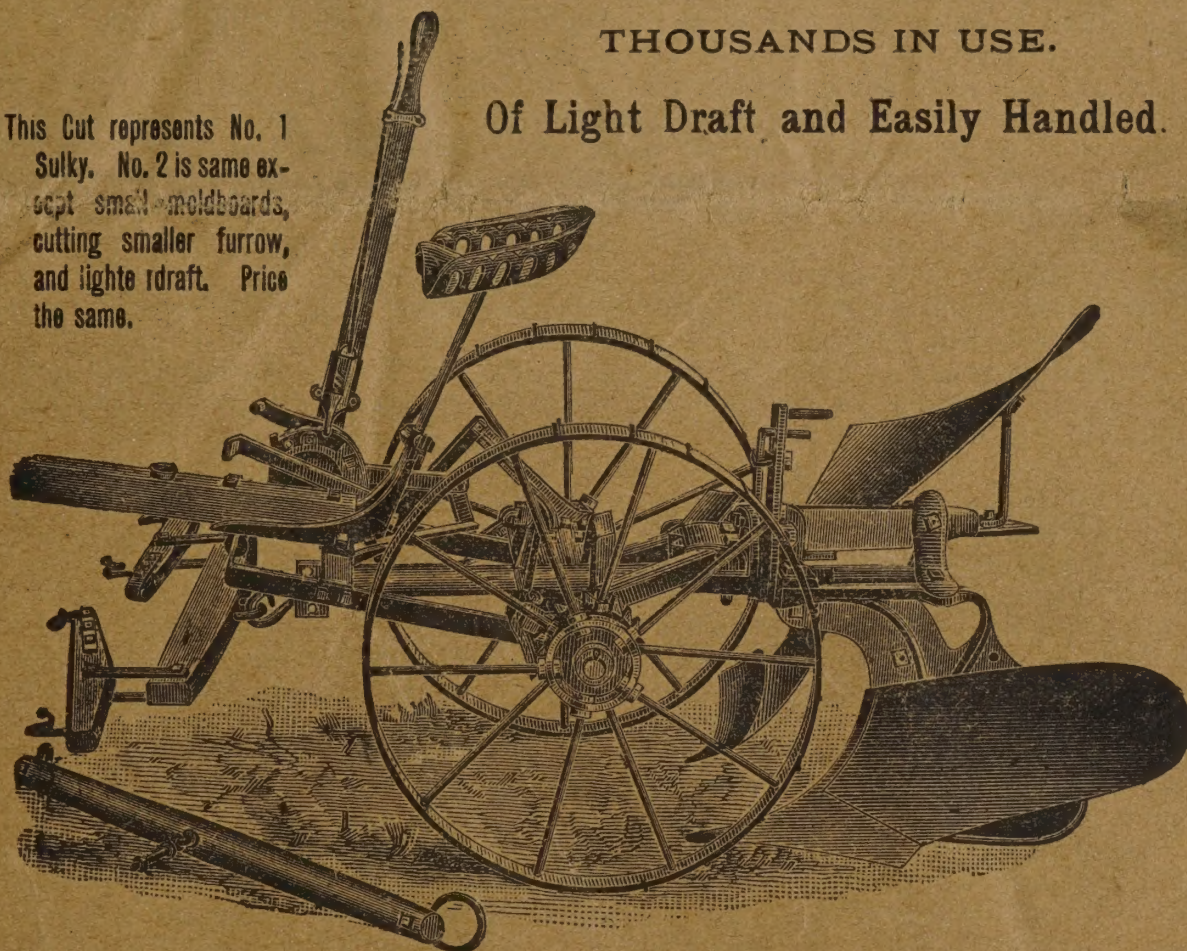

(STRAIT'S PATENT.)

The most wonderful Invention and Improvement of the Age.
ONLY NEEDS TO BE TESTED TO BE APPRECIATED.

THOUSANDS IN USE.

Of Light Draft and Easily Handled.

This Cut represents No. 1
Sulky. No. 2 is same ex-
cept small moldboards,
cutting smaller furrow,
and lighter draft. Price
the same.

The only successful Sulky Plow made that will plow stony rough Side-
hill or Level Land. Now made with improved Trip Spring
and perfect fitting heavy Points.

ALSO A NEW PATTERN WHEEL DESCRIBED ON NEXT PAGE.

MANUFACTURED BY THE

Belcher & Taylor Agricultural Tool Company,
CHICOPEE FALLS, MASS.

FOR SALE BY

To all Progressive Farmers.

We desire to call your attention to the merits of the

National Reversible Sulky Plow.

This plow is not an experiment, having been placed upon the market several years since, in which time there have been several thousand sold. Unlike all other makes of Riding Plows, the National has been especially designed to meet the wants of all farmers, and succeeds not only upon level farms, leaving them without tracks or dead furrows, but is equally adapted to stony, rough sidehill farms, turning the land with the slope, and not up the hill as is the case with all one-way Sulky Plows.

We believe the National to be the *only Sulky Plow* in the world that can justly lay claim to being a success for all kinds of work and in all varieties of soil.

CONSTRUCTION.

As shown in the cut a Right and Left Steel Flat-land Plow is mounted upon a Steel Beam, one being at right angles with the other, and easily revolved by unlocking a Hand Lever at the rear of the driver, the weight of the upper plow causing the lower to rise. In this way a furrow may be turned either to the right or left, so that the lands are left level without dead furrows. Each plow has an easy adjustment to make it cut a wide or narrow furrow, and is raised out of the ground by a perfect working *Power Lift*, and set in again by a Foot Lever, so that the operator has both hands with which to manage his team. This operation is so easy that *any boy or girl* that can manage a team can use the plow. With the Adjustable Seat the operator always sits in a level position, and on the uppermost side in plowing steep sidehill land, preventing the plow from tipping.

With the Hand Lever that is turned backward the Power Lift can be operated by the driver when walking.

Either Plow can be detached from the Sulky, and fitted with beam and handles, thus making *two perfect flat-land Plows*. We furnish Beam, Wheel, Clevis, and Handles for \$5.00.

DRAFT.

The National Sulky Plow having a perfectly independent motion either up or down or laterally, when rightly attached to the team and adjusted, *the sulky always carries the plow*, not the plow the sulky, except in case of very hard land when it is desired the weight should be thrown upon the plow to hold the same more firmly to the ground. This, of course, helps greatly to solve to parties unacquainted with the National, the vexed question of whether a sulky can be made to draw lighter than a hand plow, as it will readily be seen that if the weight of the plow is carried by the sulky in place of being dragged through the ground, the friction on the base must necessarily be decreased and the draft much lessened. So that we confidently claim that in doing the same amount of work *the National will draw lighter than a hand plow*.

The new pattern wheel is made with the ends of the spokes upset, shaped and fitted to the inside of the rim and held with countersunk head bolts through the rim. This construction prevents the rim from springing in and breaking the spokes when doing heavy work, and is *fully warranted*. The new spokes can be used in repairing old wheels.

STRENGTH AND DURABILITY.

Several years of careful attention to the working of this plow in the field, and the immediate alteration of any faults in its construction, together with the use of none but the best of material, has enabled us to offer the farmer a perfect plow, and well adapted to the rough farms in New England. Our success in the past, and notably the last season, shows us that our labor has not been in vain, and it is a pleasure to state that of the numbers of plows sent out as now improved we have failed to receive any but the most satisfactory reports.

So that not only we claim that we have in the National *the only perfect Sulky Plow* adapted for use on sidehill or level lands, but that its simplicity of construction, and ease of handling, will enable any boy or girl capable of managing a team to plow hard sidehill or level lands with better results than the same fields can be plowed with walking plows in the hands of an expert operator.

Remember that this is an age of advancement, and old methods are constantly giving way to newer and better; and give

THE NATIONAL REVERSIBLE SULKY PLOW

a trial.

Neck Yokes, Evener, Whiffletrees, which answer for two or three horses abreast, are sent with each Plow.

PRICE, \$55.00,

INCLUDING EXTRA POINTS.

Either Jointers, Straight or Rolling Coulters are furnished, but, if not otherwise ordered, Jointers will be sent with each Plow.

Valuable information in regard to the merits of the National Reversible Sulky Plow can be obtained by reading copies of letters received from parties that have had experience with this and other patterns of plows.

BELCHER & TAYLOR.

MOUNT VERNON, MAINE, June 5, 1905.

Dear Sirs:—The National Reversible Sulky Plow which I ordered of you in October, 1904, I have used on my farm in places that were very rocky, also in plowing that was steep sidehill, and it works complete anywhere. I am very much pleased with it. It turns the sod well, and will turn out rocks that would throw out a sidehill plow every time.

Respectfully,

R. J. MOOAR.

BELCHER & TAYLOR Co.

STETSON, MAINE, May 29, 1905.

Gentlemen:—I am much pleased with the Sulky Plow, it is all you claim for it and more too. I would not sell it for three times what it cost if I could not get another.

Yours truly,

H. G. DEMERITT.

BELCHER & TAYLOR.

KINGFIELD, MAINE, May 27, 1905.

Gentlemen:—Enclosed please find check for your National Sulky Plow. I have bought the plow for myself and I think I have learned how to run it, and will say that there is no plow on the market that comes up to it, and I am more than pleased with it.

Yours truly,

C. D. LANDER.

BELCHER & TAYLOR Co.

SKOWHEGAN, MAINE, August 1, 1905.

Gentlemen:—Please send us one of your National Sulky Plows with latest improvements. We have used one for many years, and think it the very best plow on the market to-day.

Yours truly,

TUTTLE BROTHERS.

BELCHER & TAYLOR.

BETHEL, MAINE, April 6, 1905.

Gentlemen:—The Sulky Plow you sent B. G. Whitman was a dandy, and he is much pleased with it. I went down and set it up and tried it and it worked fine and turned the land much better than any plow he had ever used.

Yours truly,

C. G. BLAKE.

SKOWHEGAN, MAINE, June 13, 1905.

MESSRS. BELCHER & TAYLOR, Chicopee Falls, Mass.

Gentlemen:—I have had my foreman break about fifteen acres of greensward with the National Sulky Plow recently purchased through your agent of this town, Mr. Bartlett. It works to perfection in every place we have used it. It is worth many times its cost upon a farm. No farmer can afford to get along without one and never would after using it.

Sincerely yours,

E. N. MERRILL.

BELCHER & TAYLOR.

SO. EFFINGHAM, N. H., March 1, 1905.

Gentlemen:—I sold a National Reversible Sulky Plow last year, and it is a dandy.

Yours truly,

CHARLES W. DAVIS.

CARIBOU, MAINE, July 5, 1904.

THE BELCHER & TAYLOR AGRICULTURAL TOOL Co., Chicopee Falls, Mass.

Gentlemen:—We have sold the National Sulky Plow for 10 years, have used it on our farm; would not have plowing done with any other plow, and have yet to hear the first complaint against the plow from our customers.

Yours truly,

IRVING & RICKER.

PORTLAND, ME., July 1, 1904.

BELCHER & TAYLOR TOOL Co.

Gentlemen:—I have used one of your National Sulky Plows six years on my farm in Falmouth and at Cape Elizabeth and like it very much. It has not cost me one dollar for repairs. It will turn a furrow as well as any single plow I ever had. I plow about 200 acres every year.

Yours truly,

A. WHITNEY.

SANFORD, ME., July 14, 1904.

BELCHER & TAYLOR, Chicopee Falls, Mass.,

Dear Sirs:—The National Sulky Plow has been used in this vicinity for nearly twenty years, and I have sold it ever since I have been in business. It is strong, well made, easily operated, and makes friends wherever it is used. In a very few years no good farmer will be without a sulky plow, and no wise farmer will be without the National Sulky Plow.

Yours truly,

S. J. NOWELL.

SOUTH PARIS, MAINE, July 5, 1904.

BELCHER & TAYLOR AG'L TOOL Co.

Gentlemen:—We have used the National Reversible Sulky Plow for the past six years on all kinds of farming land, and it is unquestionably, in our minds, the best sulky plow on the market. We have also sold many of these plows since we commenced using them ourselves, and have not yet had a single complaint. We most cheerfully recommend them to all farmers, both for service and economy.

Very truly yours,

A. W. WALKER & SON.

NEWPORT, MAINE, May 15, 1904.

BELCHER & TAYLOR Co.

Gentlemen:—Allow me to say that I have tried the National Sulky Plow under different conditions, and some very severe ones, and am *perfectly satisfied* with its work, and much pleased with its ease of handling, both for team and driver. I will say that I would not take double the cost of it if I could not get another like it.

Yours truly,

JOHN F. LONGLEY.

THORNDIKE, ME., July 2, 1904.

THE BELCHER & TAYLOR AGRICULTURAL TOOL Co., Chicopee Falls, Mass.

Gentlemen:—I readily sold the three National Reversible Sulky Plows which I received the last of May. They gave satisfaction in every respect. I consider the National the best sulky plow made; it certainly sells the best here. Will you please forward me one by freight.

Very respectfully,

C. B. COX.

BURNHAM, ME., July 5, 1904.

BELCHER & TAYLOR Co.

Gentlemen:—This plow exceeds all my expectations. I can plow more and far better with it than any walking plow I ever saw, and I would not be without it if it cost one hundred dollars.

Very respectfully,

WALTER T. EDMONDS.

MESSRS. BELCHER & TAYLOR.

ST. ALBANS, ME., July 12, 1904.

Dear Sirs:—Your favor of the 1st at hand, and in reply will say that I am very much pleased with my Sulky Plow; it does fine work; would just as soon think of farming without a mowing machine as I would without a National Sulky Plow.

Yours respectfully,

A. B. TRACY.

BELCHER & TAYLOR Co.

KINGMAN, MAINE, July 16, 1904.

Gentlemen:—Every one who has tried your Sulky Plow is delighted with it. A man cannot farm without one any more than he can hay without a horse rake or mower. I will guarantee to plow better and easier where it is too rocky to plow with a hand plow.

Yours truly,

D. H. HORTON.

HEBRON, MAINE, July 11, 1904.

THE BELCHER & TAYLOR A. T. Co., Chicopee Falls, Mass.

Gentlemen:—I have sold your Sulky Plow for a number of years and they are giving good satisfaction, no other sulky plow being used here now, our land being very stony in places, requiring a very substantial plow. Wishing you success, I remain,

Yours truly,

J. L. BUMPUS.

BELCHER & TAYLOR Co.

KNOX STATION, ME., July 11, 1904.

The National Sulky Plow we bought of you in the spring of 1902 has given entire satisfaction on all kinds of soil, working finely in soil packed with cobble stones, doing far better work than would be possible to do with any hand plow we have ever seen used. We consider the National Sulky Plow lighter draft than any hand plow we have ever used doing the same work. For lightness of draft, ease of handling, perfect adjustment and durability, the National surpasses any plow on the market at this date. We have tried other Sulky Plows, but the levers were so awkward to handle and so much time wasted in commencing each furrow that we had no use for them after giving your plow a trial. This is the third season we have used the National Sulky Plow, and it has not cost us one cent for repairs and is in fine shape for plowing any kind of land.

Respectfully yours,

F. L. PHILBRICK & SON.

BELCHER & TAYLOR.

NEW MARKET, N. H., May 10, 1905.

Gentlemen:—I bought one of your Sulky Plows second-handed some time ago, and am much pleased with it. I have run this plow four years, and find the longer I run it the better I like it.

Yours truly,

FRED A. LANGLEY.

BELCHER & TAYLOR, Chicopee Falls, Mass.

BARTON, VT., August 15, 1904.

Gentlemen:—I have used the National Sulky Plow the past thirteen years and prefer it to any walking plow where the surface of the ground is free from obstructions.

Respectfully,

A. B. EMERSON.

THE BELCHER & TAYLOR A. T. Co.

HOLLIS, N. H., July 7, 1904.

Gentlemen:—Replying to your inquiry of June 30, would say the National Sulky Plow I sold two years ago is giving great satisfaction. Does the work that can be done with any hand plow, and a boy who can drive a team can use it.

Yours truly,

GEORGE A. LADD.

BELCHER & TAYLOR.

CHICHESTER, N. H., July 10, 1904.

Gentlemen:—We have found in our experience with your National Sulky Plow which Mr. Batchelder, your agent, sold us, about as nearly perfected and as practical for plowing as the late improved mowers for cutting grass, and even when the ground is quite rocky they give good satisfaction; and, as the team becomes accustomed to the working of the plow, the draft is lighter than a walking plow, doing equally as good service.

Yours truly,

M. S. SANBORN.

BELCHER & TAYLOR AGR. TOOL CO.

CHESHAM, N. H., July 16, 1904.

Gentlemen:—The Plow exceeds all my expectations of it. I can plow more and better with it than with any walking plow I ever saw, and draft is light.

S. MASON.

VERMONT STATE HOSPITAL FOR THE INSANE.

BELCHER & TAYLOR CO.

WATERBURY, VT., Nov. 25, 1903.

Gentlemen:—Your Sulky Plow is all that you claim it to be.

Very truly yours,

F. T. SHIPMAN, Farmer.

BELCHER & TAYLOR CO.

HARTLAND, VT., July 1, 1904.

Gentlemen:—The National Reversible Sulky Plow I bought of you four years ago gives perfect satisfaction. I would give one dollar per acre more for land plowed with this plow than with any walking plow; it leaves the land so flat and smooth for any kind of harrow, very little turf can be harrowed up. It is a perfect plow.

Respectfully,

HENRY S. BRITTON.

BELCHER & TAYLOR CO.

WESTMINSTER, VERMONT, Nov. 12, 1903.

Gentlemen:—I have delayed writing until I could see the Sulky Plow work. It works very satisfactorily. I have had a lot to see it.

Yours truly,

G. C. COX.

BELCHER & TAYLOR CO.

BARTON LANDING, VT., July 5, 1904.

Gentlemen:—We are using one of your National Sulky Plows that we purchased of your agent, H. O. Whitcher & Son, and are very much pleased with it. Can do more and better work in the same time than with any walking plow we ever used. Its good points we consider to be light draft, easy to manage in the furrow, thorough workmanship, and if we were to give it a new name it would be "The Farmer's Perfect Plow." We would be pleased to show its working on our farm to anyone in need of a good plow. It is the best plow we ever used or expect to use.

Yours respectfully,

F. H. SKINNER & SON.

MESSRS. BELCHER & TAYLOR.

LUDLOW, VT., July 4, 1904.

Gentlemen:—I am pleased with the Sulky Plow I bought of you last spring. It works very nicely; draft is light as my old hand plow and I can do better work with it than any plow I ever used.

Yours truly,

J. H. GEER.

BOSTON, MASS., July 2, 1904.

BELCHER & TAYLOR A. T. Co., Chicopee Falls, Mass.

Dear Sirs:—We have sold the National Sulky Plows for you for quite a number of years, and up to present time, we have never heard of one that failed to give perfect satisfaction. We consider the National Sulky Plow superior by far to any other similar plow in the market.

Yours truly,

JOSEPH BRECK & SONS (Corporation), Per J. F. BRECK, *Treas.*

HUBBARDSTON, MASS., July 2, 1904.

THE BELCHER & TAYLOR Co., Chicopee Falls, Mass.

Gentlemen:—I have sold a number of the National Sulky Plows. In every case they have given excellent satisfaction.

Yours very truly,

CHAS. C. COLBY.

GEO. S. TAYLOR, AGENT.

NORTH HATFIELD, MASS., July 7, 1904.

Dear Sir:—Have used your Sulky Plow for a number of years, having one of the first Sulky Plows that was brought into town; had it sent to your place a short time since and some of the new improvements added and it works better than ever. One of my neighbors has a sulky plow of another make which turns the soil equally well, and which I borrow once a year and try to like, but the levers are so awkward to handle, and it takes so long to get ready to start plowing each furrow, that a half hour's trial is all that is necessary to convince me that your make of plow is much the easier to handle, beside being simpler in adjustments. Have used the plow in boggy meadow as well as steep stony sidehills, and find that it is strong and durable and always plowing.

Yours truly,

GEO. B. McCLELLAN.

BELCHER & TAYLOR CO.

BARRE, MASS., July 8, 1904.

Gentlemen:—I have used your Sulky Plow for over ten years and think it the best in the market. It can be used on all grounds with less draft than any other plow that I have ever seen, and will do better work.

Respectfully,

SETH S. WILLIAMS.

BELCHER & TAYLOR A. T. Co.

GEOTON, MASS., July 18, 1904.

Gentlemen:—The National Sulky Plow I purchased of your agent, F. B. Felch of Ayer, is very satisfactory; having used other sulky plows I feel justified in calling the National the *best* and cheerfully recommend it to all in need of a plow.

Yours respectfully,

T. G. SMITH.

CONWAY, MASS.

MESSRS. BELCHER & TAYLOR AGRICULTURAL TOOL CO.

Gentlemen:—I have one of your National Reversible Sulky Plows, which I have used on my farm since 1889 in all kinds of soil, and will say that I have never seen a plow that will do better work under all conditions than it is capable of doing.

Yours truly,

CHARLES PARSONS.

GEO. S. TAYLOR.

CUMMINGTON, MASS., July 6, 1904.

Dear Sir:—I have used the National Reversible Sulky Plow since the fall of 1886, and can say that it has given entire satisfaction on all kinds of lands and would not do without it on any account. It is handled very easily in stony ground. I cannot speak in too high terms of the plow.

Respectfully yours,

E. F. WARNER.

WARREN, MASS., July 12, 1904.

MESSRS. BELCHER & TAYLOR Co.

Gentlemen:—Having used your National Sulky Plow four years, I have nothing but praise for it. It seems to draw no harder than the best hand plows and turns the soil as well. It keeps in the ground on stony soil better than any other plow. I have one piece of ground that has many hidden rocks, and with the hand plow the team would get nervous, the plow would catch, and the driver would turn a double somersault and land in front of the horses and use language that spoiled their morals; but, with the Sulky, he simply holds to the seat and the plow is safe, for it holds to the ground all O. K.

Yours very truly,

C. H. WALKER.

BELCHER & TAYLOR.

TAUNTON, MASS., July 10, 1904.

Gentlemen:—Too much cannot be said in favor of the National Reversible Sulky Plow. It is by all odds the most valuable implement of cultivation in the whole list. The variety of work it will accomplish perfectly, that the ordinary plow cannot do at all, cannot be enumerated here, but it is safe to say that any who will give it a trial will be more than pleased with the result. It turns up tons of soil that never would be exposed by the use of the common plow.

Very truly,

A. A. SOUTHWICK, *Farm Supt. Taunton Lunatic Hospital.*

LUDLOW, MASS., July 11, 1904.

BELCHER & TAYLOR AG'L TOOL Co., Chicopee Falls, Mass.

Gentlemen:—Having received a wound in my back from a bullet in the Civil War, I was rendered unable to do hard work, but being without a hired man in the spring of 1897, I started plowing one of my rough stony fields with a hand plow, but I could not plow more than three furrows around it before I gave out, and I was laid up for over a week with my back. Then I went and bought one of your National Sulky Plows and went to plowing, and I have done, since then, all the plowing on my farm, which carries 25 head of stock.

We use our plow anywhere and everywhere, in wet, boggy meadows and on the dry, stony hillsides, turning a perfect furrow 17 in. wide in greensward with a pair of horses weighing about twenty-five hundred. We have only broken two points while we have used the plow, and then in both cases it was when we were backing over round cobble stones.

Also it is useful in our potato field for furrowing out, and then by putting the right hand plow on the left side and the left hand plow on the right side, so that the two moldboards come together, and letting them hang from the center, it makes a perfect potato coverer which adjusts itself to the different conditions of the land.

Altogether, I am more than pleased with my plow, and now I am independent of hired men.

Very truly yours,

EDWARD T. POTTER.

BELCHER & TAYLOR, Chicopee Falls, Mass.

PROVIDENCE, R. I., August 10, 1904.

Gentlemen:—After selling the National Sulky Plow for eighteen years we are glad to say that it has always proved satisfactory to our trade; and we believe that it is the best Sulky Plow for all kinds of work under all conditions, that is now on the market.

Yours respectfully,

W. E. BARRETT CO.

THE BELCHER & TAYLOR AGR. TOOL CO., Chicopee Falls, Mass.

ABBOTT RUN, R. I., August 10, 1904.

Gentlemen:—For twenty years I have used the National Sulky Plow in all kinds of land, rough, stony, and even bog meadow, with excellent success. It is simple, durable, easy to handle, and is kept in repair at slight expense.

Yours truly,

D. O. CARGILL.

WINDSOR LOCKS, CONN., June 30, 1904.

BELCHER & TAYLOR AGR. TOOL CO., Chicopee Falls, Mass.

Gentlemen:—Have sold the National Sulky Plow for a number of years and haven't found a man yet who has used one that did not find it perfectly satisfactory, and feel justified in saying myself that I believe it to be as good if not the best Reversible Sulky Plow made to-day. Also would say that our sales have been very satisfactory in this tool.

Yours respectfully,

F. S. BIDWELL & CO.

BELCHER & TAYLOR, Chicopee Falls, Mass.

WOODBURY, CONN., July 5, 1904.

Gentlemen:—It is now about sixteen years since I introduced your National Reversible Sulky Plow into this section, and they are still holding the record for durability, utility, comfort, and economy over any competitor. I hold that any farmer doing any reasonable amount of work can ill afford to be without one.

Respectfully yours,

F. F. HITCHCOCK.

NEWTOWN, CONN., July 6, 1904.

THE BELCHER & TAYLOR AGRICULTURAL TOOL CO., Chicopee Falls, Mass.

Gentlemen:—We have had in use here on our farm for three years one of your National Sulky Plows, plowing at least forty acres each year. In the last two years we have not used a hand plow; after using one year we found we could plow anywhere and do good work in places it was impossible in years before to do with a hand plow. In the time we have used it have not spent one cent for repairs, aside from new shares, and do not see why it is not as good as when new. The draft is easier than a hand plow of the same size. We have plowed ten hours (from 2½ to 3 acres) every day with a pair of ordinary horses.

Yours truly,

T. E. PLATT & SON.

BELCHER & TAYLOR AG'L CO.

SIMSBURY, CONN., July 13, 1904.

Gentlemen:—Your National Sulky Plow ought to be on every farm in the country. For first-class work it has, in my judgment, no superior.

Respectfully yours,

S. T. WELDEN.

BELCHER & TAYLOR.

PUTNAM, CONN., July 12, 1904.

Gentlemen:—The Sulky Plows I have had of you have given satisfaction in every case. It has proved to me that it is the lightest plow to handle as well as the lightest draft of any plow I know of.

Truly yours,

JOHN H. LARNARD.

GEORGE S. TAYLOR, ESQ.

ROCKVILLE, CONN., July 1, 1904.

Dear Sir:—I cannot recommend your Sulky Plow too highly. It is a perfect plow for all kinds of land. I do all my regular plowing with a pair of horses, doing one third more in a day than with hand plows, with perfect ease for man and team. Have never used the three horse hitch, but have been in bog meadows that never were plowed and never could be with any other kind of plow, with four 1200 pound horses on, and found to my surprise the plow was strong enough in every part. Have many times been in bogs we had to back out of after the team had pulled their best.

Have been plowing a piece for stocking down for a neighbor to-day, and he would not allow a harrow on it. Said it was smoother than it would be after the harrow. Simply put the seed in with a weeder. Yours truly,

F. R. TUCKER.

GROVER HILL, OHIO, December 21, 1904.

BELCHER & TAYLOR, Chicopee Falls, Mass.

Gentlemen:—I like the riding Reversible Sulky Plow very much.

Yours truly,

CHAS. A. BRAY.

THE MANOR FARM, ROUTE 1, TORRINGTON, CONN., July 5, 1904.
BELCHER & TAYLOR AGR. TOOL Co., Chicopee Falls, Mass.

Dear Sirs:—Yours of the 1st to Sherman Kimberly was handed to me, as he has retired from active farming. I still use the National Sulky Plow purchased by him five years ago, and do over 95 per cent of my plowing with it. It will plow any land that is fit to be plowed, and in most places I can do more and better work than with a hand plow. I also find it very durable; the repair bill has been very slight considering the large amount of rough plowing I have done.

Yours truly,

KARMI KIMBERLY.

RIDGEFIELD, CONN., Aug. 31, 1903.

BELCHER & TAYLOR Co.

Gentlemen:—Your favor of the 29th inst. is received. I purchased a National Sulky Plow in 1893 and it was in use six years when I obtained a second one, although the first was not worn out, and is still in service. My experience with the National Sulky Plow has been very satisfactory, for it performs good work on level and hilly land.

Very truly yours,

A. S. APGAR.

BELCHER & TAYLOR Co.

LIBERTY, N. Y., Oct. 30, 1903.

Gentlemen:—I am very much pleased with my Sulky Plow; it does fine work, does it easy and more of it than the other plows. It has spoiled me, I cannot get out the flat land plow and use it any more. I am going to sell several around here.

Yours truly,

W. R. CRARY.

BELCHER & TAYLOR Co.

WALLACE, N. Y., July 12, 1904.

Gentlemen:—I bought one of your riding plows last spring which I greatly admire. It does much better work than the walking plows, and anyone who can handle a team (women included) can plow with one.

Yours respectfully,

MRS. S. A. BURCHARD.

NOAH KEELER, AGT.

WALLACE, N. Y., July 9, 1904.

Dear Sir:—The National Reversible Sulky Plow bought of you last spring is the article I have been looking after for years, having a number of acres of rolling land for potatoes in which the dead furrow always causes a wash, besides leaving a hole in the field. To avoid this I have used the sidehill plow, which was not satisfactory because the jointer will not work on a sidehill plow. Your plow gives satisfaction in all soils. Would not sell it for one hundred dollars if I could not replace it.

Yours respectfully,

G. W. POLMANTEER.

BELCHER & TAYLOR Co.

WALLACE, STEUBEN Co., N. Y., July 12, 1904.

Dear Sirs:—I bought one of your National Sulky Plows in the spring of 1903 of your agent, Noah Keeler. Have used on level and sidehill land; it does the work far better than a walking plow; I consider it the best plow that I ever saw used.

Yours truly,

E. N. KEELER.

BELCHER & TAYLOR.

CAMBRIDGE, N. Y., May 15, 1904.

Dear Sirs:—I have a National Reversible Sulky Plow which I bought a year ago. The plow is a daisy. I have done all my plowing this spring with it, and the ground is very stony, too, and it works fine on sidehill or level land. I have plowed on hills so steep that the horses could hardly stand up and stay in the furrow.

Yours truly,

M. W. BURNHAM.

BELCHER & TAYLOR Co.,

LAKE WACCABUC, N. Y., December 2, 1903.

Gentlemen:—The man who uses the Sulky Plow says, "It is worth forty walking plows, and is the best tool I ever saw." Yours truly,

HENRY E. JOHNS.

BELCHER & TAYLOR Co.

DEETH, ELKO Co., NEVADA.

Dear Sirs:—I did good work with your Sulky Plow this spring, and with three small horses much better and easier than I did on the same kind of ground last spring with a common sulky and six horses.

I think a man knows but little about farming that has ever seen your plow work, and would not get one in preference to any other plow, for any kind of ground, level or hillside, or rocky, or sandy. I have used this one in them all and have never seen its equal. This is the first time I ever recommended anything in this way and would not do it if I did not know the plow to be just what I say it is.

Yours truly,

E. W. DAVIS.

BELCHER & TAYLOR AG'L Co.

VARDEN, PA., July 6, 1904.

Gentlemen:—Yours of the 1st received. We sold the Sulky Plow to one of our customers. We never saw it work, but the party who has it is very well pleased with its work.

Yours respectfully,

W. R. & M. S. SHAFFER.
